Meeting Notes

SIGMIS CPR Business Meeting – June 2, 2022

Item	Details	Facilitator
Reports and Awards	CPR 2022 Conference Chairs' report • Due to the covid pandemic and travel restrictions, the conference was hybrid for the first time. About 50% of the participants attended the conference in Atlanta, Georgia, and the other 50% participated online. Overall, the conference successfully created a rich program and forum for discussion. Program Chairs' report • Theme: Redefining the I.T. profession and the human role of the I.T. professional • Submissions: - Received 25 submissions (19 full papers and 6 research in progress) - The acceptance rate was 76% for this edition of the conference - Final totals: 17 papers presented, 53 reviews, 40 authors. • Awards: - Magid Igbaria best paper award: Maximilian Valta, Johannes Menzel, Christian Maier, Katharina Pflügner, Marco Meier, and Tim Weitzel from University of Bamberg, Germany for their article "Digital Nudging: A Systematic Literature Review and Future Research Directions." • Doctoral Consortium: - Participants: four doctoral students - Doctoral Mentors: Michelle Kaarst-Brown, Andreas Eckhardt, Tenace Kwaku Setor, Damien Joseph, and Cindy Riemenschneider.	Mike Gallivan and Sam Zaza Guillermo Rodriguez-Abitia, Deborah Armstrong, Indira Guzman Michelle Kaarst-Brown
SIGMIS Awards	SIGMIS Lifetime Achievement Award – Fred Niederman	Cindy Riemenschneider
DATABASE Journal	Co-Editor in Chief Tom Stafford completed his tenure. The new Co-Editor in Chief starting Fall 2022 is Nancy Deng. K.D. Joshi will continue in her role of Co-Editor in Chief. An ad-hoc committee has been formed to determine if the journal will be published only electronically and to see if it is possible for ACM to recognize DATABASE as a journal instead of a newsletter.	K.D. Joshi
SIGMIS Updates	**Financial strength** – We continue to support research initiatives (e.g., research grants, doctoral consortium membership). In the future, we will need to be more fiscally conservative as our reserves continue to decline. We have	Cindy Riemenschneider

	approximately $221k funds, which is about 30k less than last year. In addition, ACM has updated the minimum annual fee after 20 years from $10k to $25k. The primary revenue source continues to be the ACM Digital Library. **Membership –** The SIGMIS membership continues to decline. Membership doesn't have a big impact on our financials but does speak to the health and growth of the SIG. Two new committees are being created to increase the visibility and the growth of the SIG. **Research Portfolio Committee** – This is a new committee. The purpose of this committee is to advocate, coordinate, and administer the various research and research awards of the SIG. Specifically, the objectives of this committee are: 1. To conduct an active advocacy program to promote and support MIS research. 2. To provide advice and support in the planning of ACM SIGMIS CPR 3. To administer the annual ACM SIGMIS Research Grant 4. To administer the annual awards sponsored by ACM SIGMIS. Faculty interested in serving on this committee should contact Damien. **Communication Committee** - This is a new committee. This committee aims to raise awareness and visibility of the ACM SIGMIS activities among the information systems community internationally in a consistent way. Specifically, the objectives of this committee are: 1. To develop a strategic communication plan and structure 2. To promote ACM SIGMIS activities through frequent and regular communication via digital channels, including social media. Faculty or students interested in serving on this committee should contact Indira.	Damien Joseph Indira Guzman
